Specifications:

Rugged plastic electronics waterproof enclosure junction box

Material	ABS material or customer specified
Color	Light gray or customer specified
Size	300*200*140mm
Weight	1.2kg
Protection level	IP65
Lid	Flat lid
Screw	Stainless steel screw
Sealing	Silicone rubber sealing
Operation temperature	-20 to 70 °C

1. Made of high quality raw plastic, high hardness anti-scratch, tough.
2. This box is dust and waterproof standard, elegant type easy for mounting.
3. With good performance, waterproof, moisture-proof, anti-corrosion, durable, maintenance free.
4. Widely used in electronic project, power project from waterproof, used from indoor and outdoor application.
5. Applicable to all sorts of control box, cabinet, electrical product enclosure, instrument box.
6. Further improved, waterproof, anti-fire, anti-corrosion, anti-pressure, anti-corrosion, anti-aging, anti-static, anti-impact, anti-UV, anti-dust, anti-rust, anti-fatigue, anti-fog, anti-mildew, anti-leakage, anti-electromagnetic interference, anti-electrical shock, anti-explosion, anti-shock, anti-vibration, anti-bacterial, anti-fungal, anti-corrosion, anti-pollution, anti-radiation, anti-electrostatic, anti-electromagnetic
