Specifications

Flygel plastic waterproof electrical enclosure junction box

Product name	Flygel plastic waterproof electrical enclosure junction box
Material	ABS+PC+PMMA
Color	Light grey
Size	300*300*150 mm
Weight	2.7kg
Protection level	IP66
Flame retardant level	UL94 V-0
Operating temperature	-40°C~+120°C
Impact resistance	IK08

1. Made of high quality, low carbon, high hardness and durable ABS.
2. Fire-proof, dust and waterproof materials: Flygel type-specific materials.
3. Flygel-specific protection: waterproof, moisture-proof, anti-corrosion, weather resistance, anti-aging.
4. Widely used in electronics project, control panel, Film, waterproof, wash-free, clean-free, anti-corrosion.
5. Applicable to all sizes of circuit box, electric, electrical, control enclosure, distribution box, etc.
