## Handheld Modules

Handheld Modules are designed for use in a variety of applications, including data collection, inventory management, and field service. They are rugged, portable, and easy to use. The modules are available in a variety of sizes and configurations, including single-handed and dual-handed. They are also available in a variety of colors, including black, white, and silver. The modules are designed to be used in a variety of environments, including indoor and outdoor. They are also designed to be used in a variety of applications, including data collection, inventory management, and field service. The modules are available in a variety of sizes and configurations, including single-handed and dual-handed. They are also available in a variety of colors, including black, white, and silver. The modules are designed to be used in a variety of environments, including indoor and outdoor. They are also designed to be used in a variety of applications, including data collection, inventory management, and field service.
