

Características técnicas	
Nome	Projeto de Arquitetura de Software
Disciplina	Arquitetura de Software
Curso	Engenharia de Software
Professor	Prof. Dr. Roberto
Assunto	Arquitetura de Software
Objetivo	Apresentar os conceitos e técnicas de arquitetura de software.
Conteúdo	1. Introdução à Arquitetura de Software 2. Modelagem de Software 3. Análise de Requisitos 4. Projeto de Software 5. Testes de Software

Weight: 1773g Size: 11.00*11.00*8.11h

Table 1. Demographic characteristics of the study population											
Variable	Number	Percentage	Variable	Number	Percentage	Variable	Number	Percentage	Variable	Number	Percentage
Age (years)			Gender			Marital status			Religion		
18-24	10	10.0	Male	100	100.0	Married	80	80.0	Muslim	90	90.0
25-34	20	20.0	Female	100	100.0	Single	20	20.0	Christian	10	10.0
