PCB Material?

Shenzhenomk Electronics CO., LTD is a professional PCB manufacturer, providing PCB manufacturing services for various industries. We have over 1000 employees and a production capacity of 100,000 PCBs per month. We provide a wide range of PCB products, including FR4, HDI, copper, aluminum, stainless steel, and silicon PCBs. We also provide laser cutting and drilling services. Our products are widely used in various industries, including automotive, aerospace, medical, and industrial. We are committed to providing high-quality products and excellent customer service.
