

## Product characteristics

- 1, products with packaging box, independent packing.
- 2, matching with screw convenient (client).
- 3, with slip-resistant floor mat.
- 4, shell have the relative independent panel, to facilitate the relevant client the processing openings.
- 5, all small packaging bag packing.
- 6, products material is plastic raw material

## Main usage

Desktop instrument box because and focalization geographic disparities to the scope of different names different also used for industrial main junction box, instrument box, electronic housings, etc mainly for indoor and outdoor electric, communication, fire fighting facilities, steel puddling, electronic, power, railway, construction site, stopcocks, airport, guesthouses, large factory, environmental pollution.

## Services and machining:

1. Developing molds and its machining
2. Modification of the product and its machining
3. The material and color of the products can be modified as required.
4. Additional costs are added for modification and machining depending on the mould.
5. Professional machines for punching the Enclosure
