gabinete preto de plástico para máquina de venda automática**

| Parâmetros do produto |                                                     |
|-----------------------|-----------------------------------------------------|
| Nome do produto       | Shell de caixa de controle remoto wi-fi inteligente |
| Número do modelo      | AK-R-230                                            |
| Uso                   | Caixa de junção PCB                                 |
| Tamanho Externo       | 86*77*23mm                                          |
| Material              | Plástico ABS                                        |
| Cores                 | Preto, aceite personalizar                          |
| Recurso               | Controle remoto, durável                            |
| Aplicativo            | Dispositivo eletrônico inteligente interno externo  |
| Personalização        | Gravação em serigrafia.recorte.etiqueta.laser       |
| Certificado           | ISO9001/ROHS/REACH                                  |

**Controle de acesso à porta SZOMK / gabinetes de plástico RFID:** A indústria de gabinetes de instrumentos eletrônicos fornece a primeira linha crítica de defesa para eletrônicos sensíveis, com controle de acesso de portas e invólucros RFID representando um segmento altamente especializado. Esses invólucros devem atender a um conjunto complexo de requisitos: oferecer proteção física robusta contra impactos e vandalismo, alcançando alta vedação ambiental contra poeira e umidade.

Controle de acesso à porta da série AK-R/gabinetes de plástico RFID
